

## **IMPORTANT ADVICE**

### **BLUE COLOUR COMPONENT FOR BEDROOM - BATHROOM - TABLE LINEN**

*Dear Customer,*

*this item is yarn dyed with Indanthrene vat dyes, i.e. the world's best industrial washing-resistant dyes; the resulting fabric is highly resistant also **if a chlorine bleaching liquor is used** (hypochlorite/chlorine bleach).*

***Blue Component vat colours** processed with chlorine washing process, should be treated with the following simple advices:*

- Bleaching washing step must be kept in an alkaline liquor base with PH higher than 10.*
- After the bleaching, before acidification for the finishing process, a souring neutralizing action with antichlor agents, must be done.*

*Following the above advices you will avoid any possible colour change toward gray/green shades of your blue colour linen, that we guarantee is the highest possible quality.*

*Please kindly follow this advices to your laundry managers.*

*Your faithfully.*

**RIVOLTA CARMIGNANI**
