

IMPORTANT ADVICE

SATIN DUVET-COVERS, BED-SHEET AND PILLOW-CASES

Dear Customer,

*considering the very fine quality of this satin bed linen,
for a best result it is recommended to wash and dry these articles with a
conventional centrifugal washing and extractor machine, and not with a
tunnel washing machine and hydraulic water extractor.*

*If the centrifugal washing process is not available, then please recommend
the laundry to set the piston of the hydraulic water extractor machine with
very low speed and pressure in order to squeeze water out of the fabric
in a "soft" way.*

**WE KINDLY SUGGEST YOU TO RECOMMEND YOUR LAUNDRY COMPANY
TO APPLY THE ABOVE TECHNICAL ADVICES.**

Your faithfully.

RIVOLTA CARMIGNANI
